**Fire Department:** Just a reminder about the tornado siren. The tornado siren is a steady blast lasting 3 minutes. It is used to indicate that a tornado has been spotted or an incident involving hazardous material. If the tornado siren activates, you should take cover inside and listen to the local stations (radio 107.1 fm or 102.3 FM, TV channels 2, 4, or 7) for updates. **DO NOT GO OUTSIDE UNTIL YOU ARE GIVEN THE "ALL CLEAR" SIGNAL.**

**What not to do:** **Do not** go to your child's school. They have plans in place and will be handling the situation. Your arrival will only impede the process. **Do not** repeatedly call 9-1-1. Only call for emergency services if you have an emergency. **Do not** seal off the whole house or office building (there will not be enough time to do so). **Do not** leave your shelter until given the "all clear" by authorities or until the time expires for the weather warning. **Do not** risk your life for your pets. If you can not get them into the shelter, go into the shelter without them. For more information, see [www.musseyfire.com](http://www.musseyfire.com). **72 Hour Disaster Kits are important for every family**
